PROFILE

Software Developer with a well-rounded skill set encompassing frontend design, backend development, code testing, and basic networking. My hands-on experience has allowed me to create responsive and engaging user interfaces, seamlessly integrating with robust backend systems. Passionate about software development, I continually expand my knowledge to include testing methodologies and continuous integration/deployment practices, ensuring high-quality and efficient code delivery.

WORK EXPERIENCE

Geoplan Philippines - Distributor & Systems Integrator

System Developer

NOV 2023 - PRESENT

- Develop and maintain front-end and back-end applications,
- performing comprehensive testing to ensure code reliability.
- Mentor junior developers and establish development standards to enhance team efficiency and collaboration.
- Configure Linux servers, deploy software, and manage client communications for RFCs and project updates.

Ama Computer College

IT Personnel (Intern)

FEB 2022 - MAY 2022

- Monitored network uptime to ensure consistent connectivity and performance.
- Connected new devices to the Ethernet and internet, ensuring proper configuration and functionality.
